

THE MOST INNOVATIVE VAPOR BARRIER SOLUTION ON THE MARKET

Hybrid Vapor Barriers

10 LAYERS OF SUPERIOR PUNCTURE AND TEAR RESISTANCE

DESCRIPTION

Meticulously crafted in response to contractor demands and designed by our team of engineers, this innovative product combines all of the benefits of both woven and string-reinforced vapor barriers into one.

Compared to its competition, this hybrid option outperforms with superior strength, reduced weight, and an impressive 0.00 Perm Rating. The YCS Hybrid Vapor Barrier distinguishes itself with exceptional puncture and tear resistance, making it the ideal choice for both wall and ground applications—all the durability of a woven product with the glossy, bright finish of a string-reinforced product. The YCS Hybrid vapor barrier is the best of both worlds.

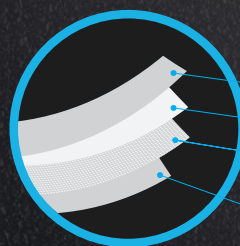

Embrace the future of vapor barriers with the YCS Hybrid—where durability, innovation, and peace of mind converge seamlessly.

PRODUCT BENEFITS

- 100% reinforced 16 mil & 20 mil vapor barriers
- Does not promote mold growth
- 100% Woven reinforcement with 10 layers of superior puncture and tear resistance
- Strong, lasting seal with YCS tapes and adhesives
- 0.00 Perm Rating
- Proprietary Product
- Lifetime warranty
